

<p>The below mentioned substances or components must not be used without written approval by Carl Zeiss Meditec. Die nachfolgend benannten Substanzen oder Komponenten dürfen nicht ohne schriftliche Genehmigung der Carl Zeiss Meditec AG eingesetzt werden.</p>	CAS-No	EC-No
Antimony and its compounds		
Azo dyes that can release carcinogenic amines		
Arsenic and its compounds		
Asbestos		
Beryllium and its compounds		
Lead and its compounds		
Cadmium and its compounds		
Chlorinated and fluorinated polymers (e.g. PVC, Teflon)		
Chromium (VI) compounds		
Chlorofluorocarbons used in material or during production		
Substances or materials that release gaseous formaldehyde		
Components that generate ozone values		
Components that emit X-ray radiation		
Latex / natural rubber		
Nickel, except in steel alloys		
Organic tin compounds (e.g. TBT, TPT)		
Phthalates		
Polybrominated bi- and terphenyls (PBB, PBT) and diphenyl ether (PBDE)		
Polychlorinated bi- and terphenyls and naphthalene (PCB, PCT, PCN)		
Polychlorinated diphenyl ether (PCDE)		
Mercury and its compounds		
Radioactive substances		
Other halogenated flame retarders		
Substances containing harmful organisms (insects / nematodes / funguses)		
Batteries and accumulators		
4,4'- Diaminodiphenylmethane	101-77-9	202-974-4
5-tert-butyl-2,4,6-trinitro-m-xylene (musk xylene)	81-15-2	201-329-4
Alkanes, C10-13 chloro (short chain chlorinated paraffins)	85535-84-8	287-476-5
Anthracene	120-12-7	204-371-1
Cobalt dichloride	7646-79-9	231-589-4
Hexabromocyclododecane (HBCDD) and all major diastereoisomers identified (α -HBCDD, β -HBCDD, γ -HBCDD)	25637-99-4 and 3194-55-6 (134237-51-7, 134237-50-6, 134237-52-8)	247-148-4 221-695-9
